# Problem in teaching

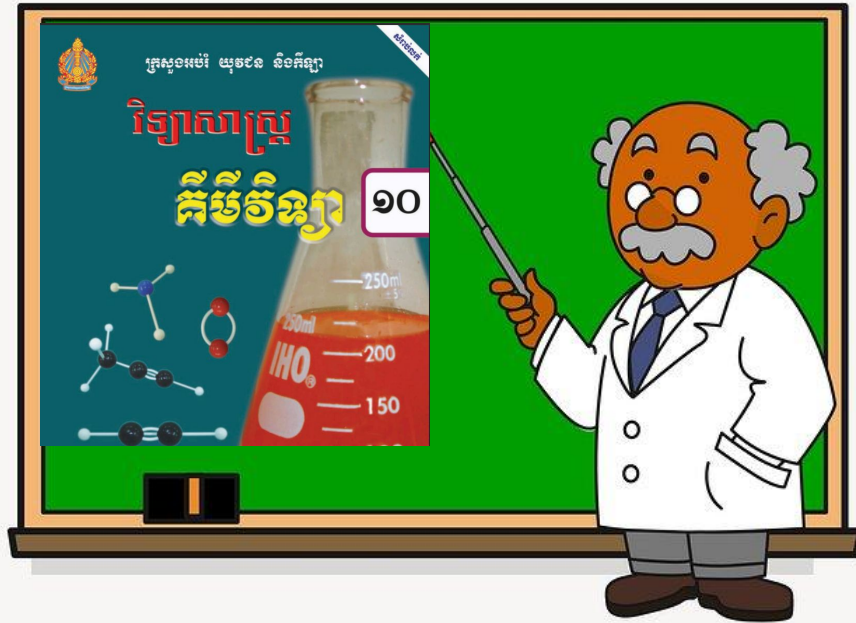

I really teaching hard, but my Students Learning Outcome still low.

*This is grade 10 "E" student quiz after my teaching.  
Choose the correct answer is 60% and total wrong is 40%*

- ❖ Because of I used with the wrong method
- ❖ How to select the correct method in teaching?

**I really want to know about  
content in ICT method tool!**

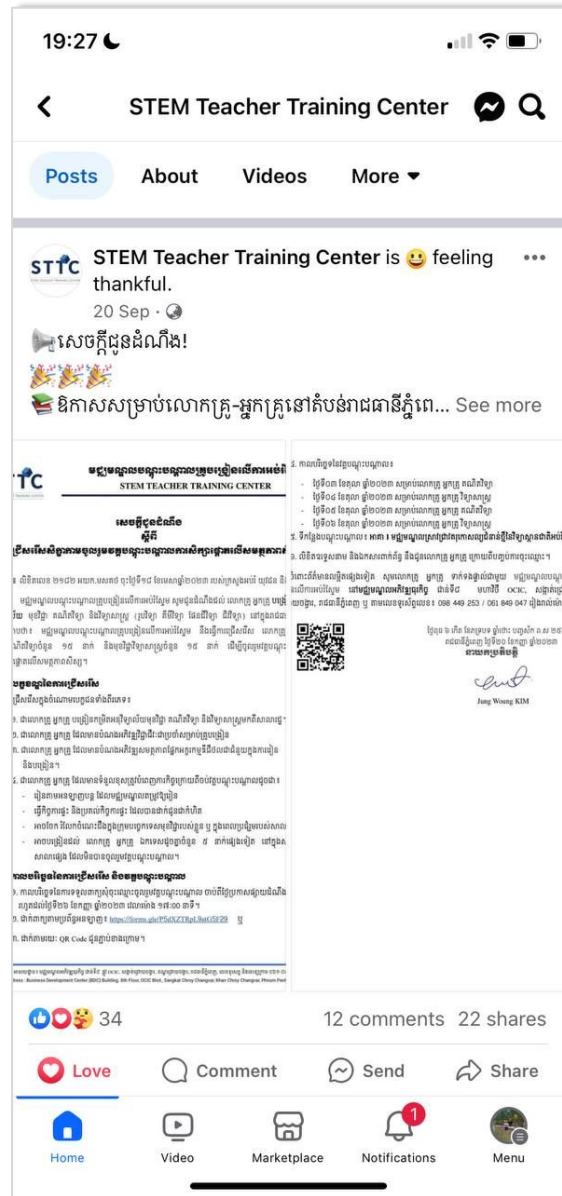

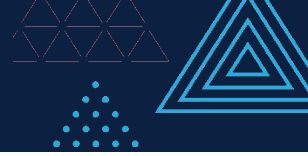

- ❑ Students achievement low
- ❑ Classroom not active
- ❑ don't have ict tools support my teaching
- ❑ Students not interesting
- ❑ Only used the textbooks
- ❑ I don't know how to used competency-based curriculum.

# I left my comfort zone and joined the EMCAST CPD

Attended in the CPD Stage 1 – Offline Seminar

## I could embrace ICT tools to improve teaching through the engagement of EMCAST CPD

- Fluent in manipulating **computer, tablet and phone apps**  
(Now easily create and manage my account)
- **Zoom & Google Meet** for online live meetups with other teachers
- Be able to actively use **Google Classroom** for managing classes before, during and after class
- Especially, **H5P platform** for creating many kinds of interactive concept videos for students' understanding of important concepts before entering class

❖ How to make the concept video?

- Include the student ability in concept video follow the curriculum.
- The easy platform for making concept video( Use phone for record)

❖ What I deliver to the students with concept video?

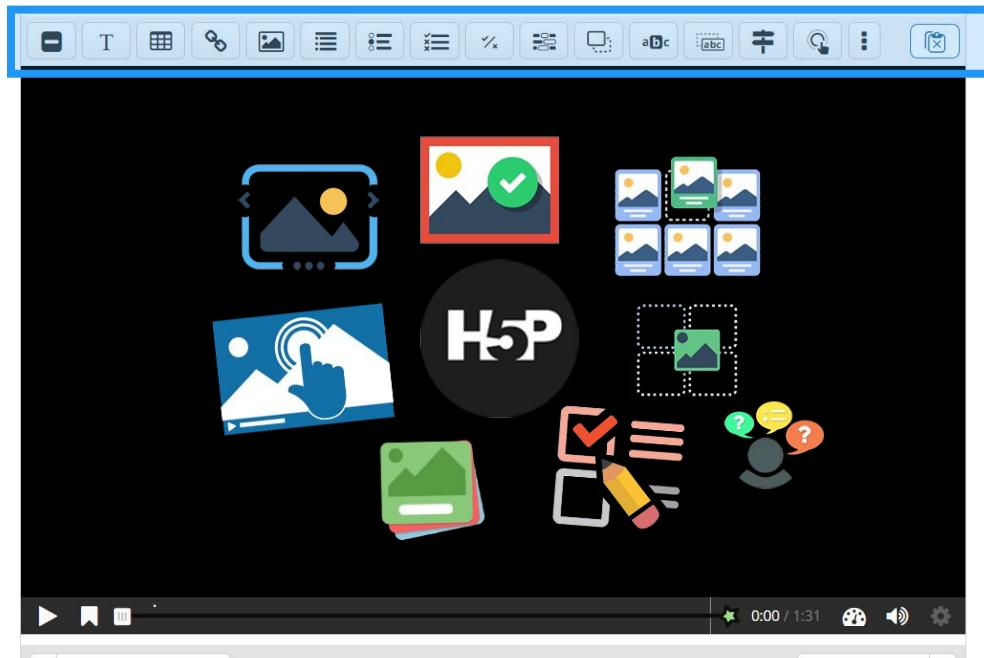

- Student evaluation worksheet
- students achievement standard

# Interactive Concept Videos using H5P

- My students had to depend only on textbooks, which were not sufficient for their learning.
- In the STTC CPD seminar, I learned how to create concept videos using the H5P platform.
- It helps me assist my students in better learning with interesting and interactive concept videos.

I had a chance to improve my skill by attending the STTC CPD offline seminar as well as online STTC courses.

# Interactive Concept Videos using H5P

- These are some of the concept videos I made on the H5P platform.

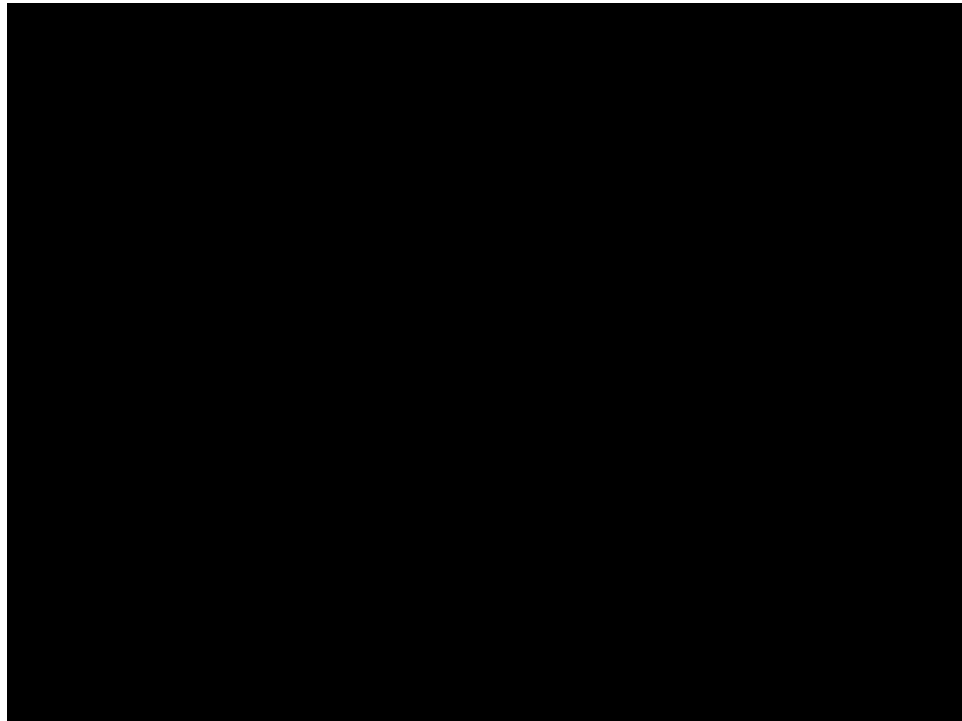

- These are some of the concept videos I made on the H5P platform.

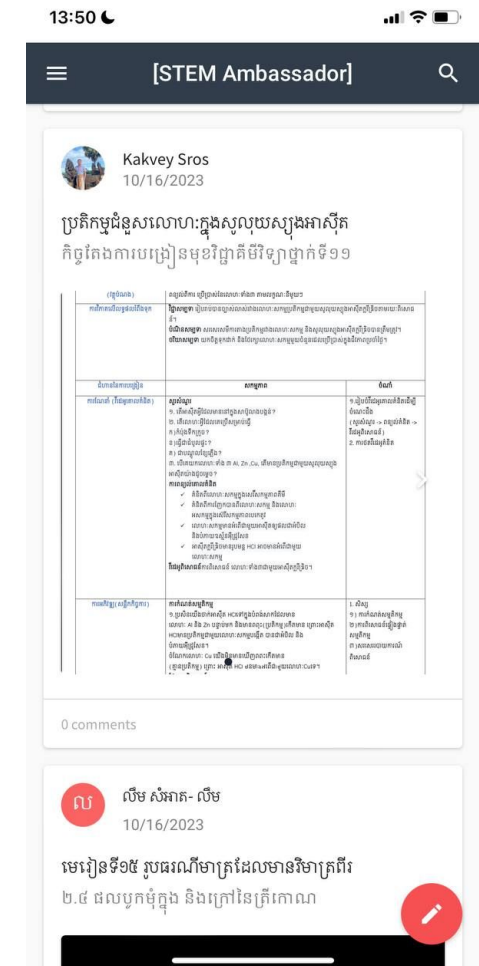

H5P Video Playing

# Interactive Concept Videos using H5P

- I'm enjoying sharing my H5P concept videos with other teachers on the STTC CPD app.
- On the STTC CPD app, I sometimes refer to the concept videos that other teachers uploaded.

# Communication and Collaboration with Teachers and EMCAST CPD Coordinator

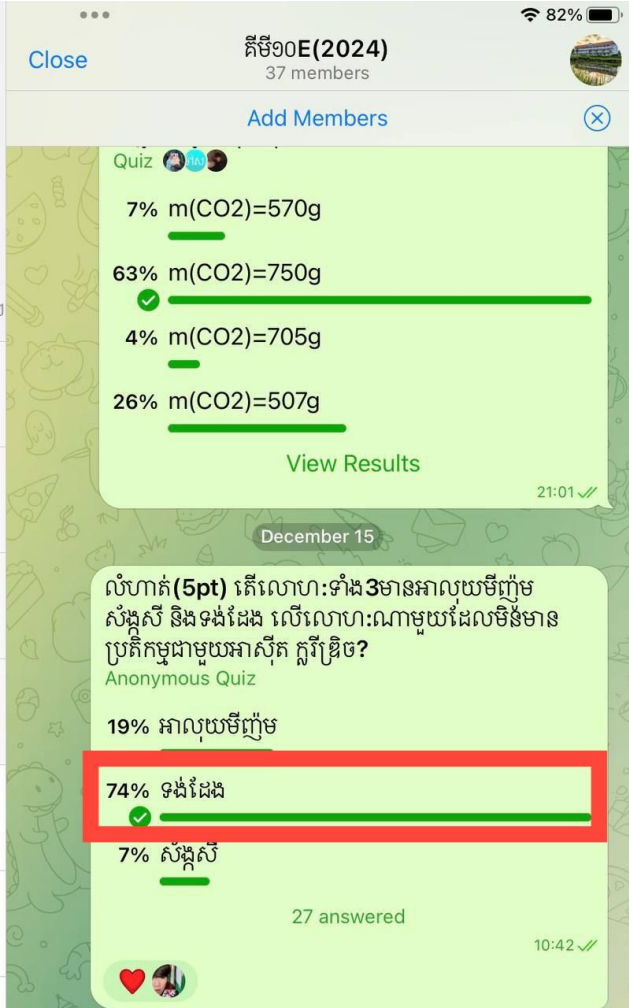

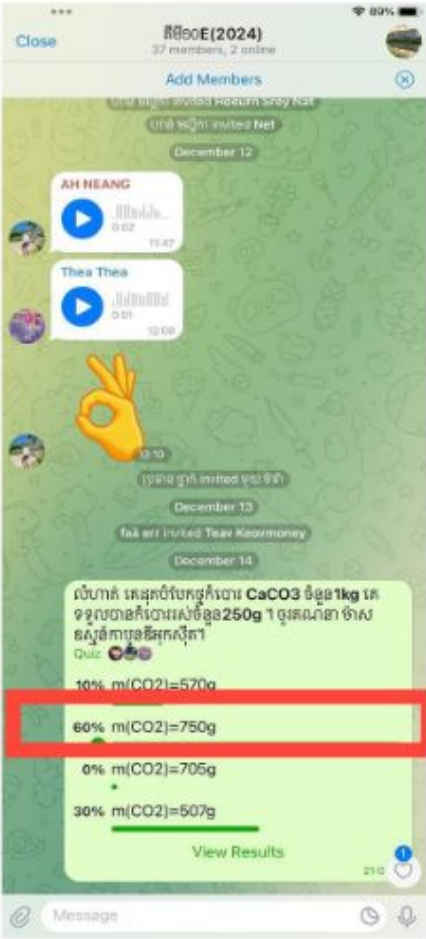

- While I keep practicing and applying in classroom after the CPD seminar, I frequently have questions and need assistance.
- With the support of CPD coordinators, Chun Sokchea and Kap Nak, the teachers online meetups have frequently been organized, where we can discuss and share knowledges.

# Students Achievement change

After watching the video  
Students achievement Increase  
from 60% to 70%.

# Sharing with my school teachers

- I requested my school principal to allow me to open the teacher workshop with Math and Science teachers.
- There, I shared my understanding about (1) preparing and implementing lessons in alignment of the latest Cambodian curriculum, (2) the method of student-centered learning, and (3) how to use ITC tools.

- As a teacher in the countryside school, but i still have chances of improving my teaching profession.
- I happened to find the chance of the CPD program in the STTC Facebook. It was open to any public school teachers.
- Despite the five-hour journey to Phnom Penh for the STTC seminar, it turned out to be exactly what I was looking for. Attending the program on September 06, 2023 transformed my approach to teaching in ways I never imagined.
- The CPD program equipped me with invaluable skills and knowledge such as competence-based curriculum, student-centered learning methods, H5P skills that I could immediately apply in the classroom.
- I hope this chance of attending the STTC CPD program could be available to many other teachers of every corner of schools who want and need to improve their teaching and their students improvement.
- Together, we can create a richer and more effective learning environment for all our students.

**Thank you**

**សូមអរគុណ**
