**What have I learned from sharing
with my colleague teachers?**

Moving forward to be a lifelong learner as a teacher

I was initially hesitant to share with other teachers.

However, after noticing that the student-centered learning method I learned from the EMCAST STTC CPD positively changed my students' attitudes in the classroom, I decided to be brave.

I grouped some teachers from my school, and shared my knowledge and experiences with them.

Moving forward to be a lifelong learner as a teacher

These are the photos documenting my experience of sharing with teachers

Sharing my knowledge learned from EMCAST CPD

Sharing their Approach to Concept Teaching

Making a Concept Video

Discussion and Working Together

Moving forward to be a lifelong learner as a teacher

Let's glimpse the day when I led the teacher community (EMCAST CPD stage 4) with Teachers in my school.

What I shared with my colleague teachers:

Knowledge

Aligning teaching with the national curriculum with the purpose of appropriate assessment

Skills

Using ICT tools, Communication, and Collaboration

- ✓ Learning by doing (learn, share, teach)
- ✓ Obtaining the culture of learning and sharing
- ✓ Ready to be a part of future solution

- CHALLENGE

- Teachers face the dual challenge of limited proficiency in using ICT tools and overcoming language barriers
- Could not foster students to actively engage in class with interest
- Challenge of increasing student learning outcomes

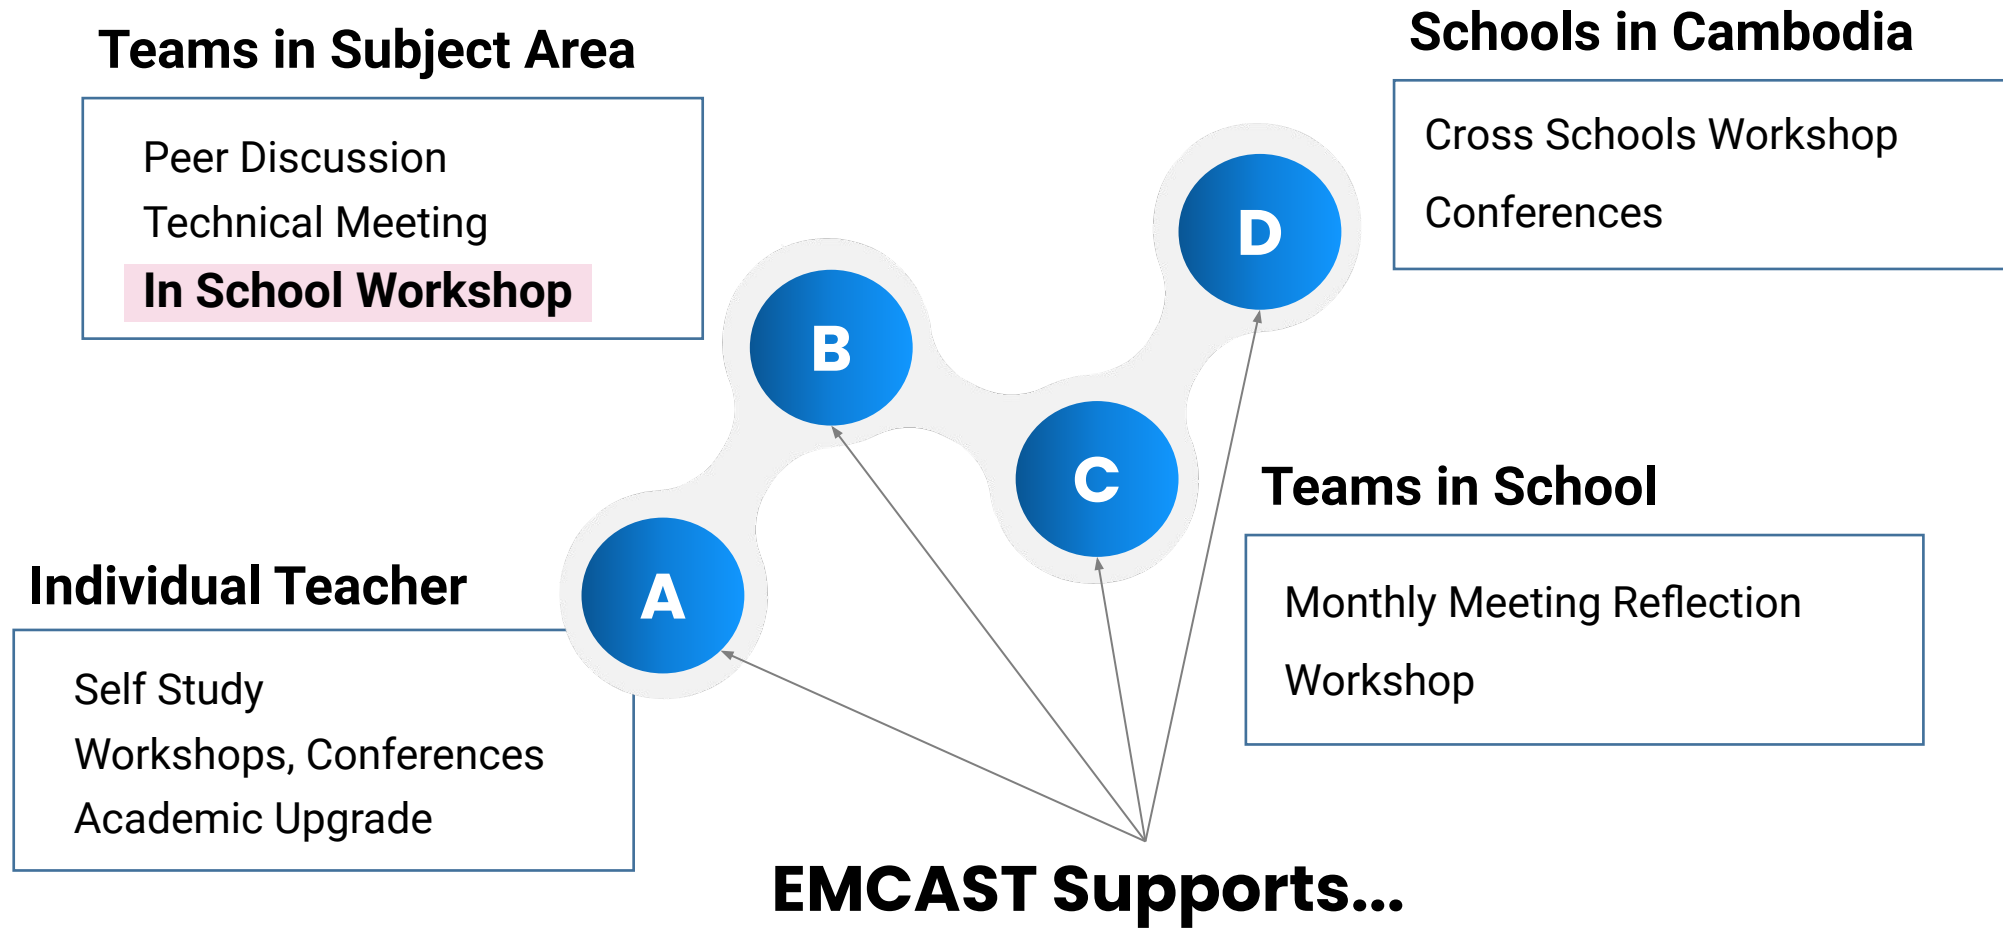

Previously

+ OPPORTUNITY

- Teachers can **sharpen their knowledge** and enhance skills to **meet students' learning needs for tomorrow**
- With the changed teaching method, **students actively participate** and **perform better in class**
- Teachers foster **network building** among teachers

Now

We Dream Big, Start Small, and Make Progress

We are growing all together!

EMCAST CPD stage 1~2
August, 2023

Stage 3: STEM Ambassador Social Party
October, 2023

Stage 4 - Prek Thmey High School
November, 2023

MY CONTINUOUS EFFORT

I will keep my effort to engage EMCAST CPD independently as well as with the support of EMCAST CPD team

- **Persist on conducting more workshops within school and across schools in community**
- **Integrate technology into teaching and learning**
- **Do research on “Using Flipped Classroom to Enhance Students’ Learning Outcomes: A Case Study on Biology Grade 11”**

Thank you
